

Project Initialization and Planning Phase

Date	30 September 2026
Team ID	6ab2a945009dcca3125ab472
Project Name	Cricket Player Performance Tracking Application: CRICKSTATS
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A cricket coach / team analyst	Track and analyze player performance metrics (batting average, strike rate, bowling economy) over multiple matches	Existing manual record-keeping is slow, error-prone, and lacks real-time insights	Match data is scattered across paper scorecards and unorganized spreadsheets	Frustrated and overwhelmed when selecting squads and building match strategies.
PS-2	An aspiring cricket player	Monitor my consistency, identify weak zones, and evaluate match-by-match improvements	I don't have an easy-to-use digital dashboard to visualize progress trends	Most professional analytics tools are complex, expensive, or meant only for elite teams	Demotivated and uncertain about which areas of my game to focus on.
