

Code-Layout, Readability and Reusability

Date	30 September 2026
Team ID	6ab2a945009dcca3125ab472
Project Name	Cricket Player Performance Tracking Application: CRICKSTATS
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spaces and indentation are used throughout the code.	Yes	Uniform spacing and indentation are used throughout the code.
2	Proper File Structure	Files and folders are organized logically for easy access and maintenance.	Yes	Files and folders are logically organized.
3	Meaningful Variable Names	Variables are named clearly according to their purpose.	Yes	Variables clearly represent their purpose.
4	Function / Method Names	Functions are given descriptive names that explain their purpose.	Yes	Functions are given descriptive names.
5	Code Comments	Comments are used to explain important parts of the code.	Yes	Comments are added to explain important sections of the code.
6	Modular Design	The code is divided into separate reusable functions or modules.	Yes	Code is divided into reusable functions/modules.
7	No Redundant Code	Duplicate and unnecessary code is avoided to keep the code clean.	Yes	Duplicate and unnecessary code is avoided.
8	Error Handling	Errors and exceptions are handled properly to prevent application failure.	Yes	Errors are handled appropriately to avoid application failure.

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Player Management Module	HTML, CSS, JavaScript	Player details and player records	High
2	Performance Tracking Module	JavaScript	Match performance and statistics	High
3	Search & Filter Module	JavaScript	Finding players and filtering records	High
4	Dashboard Module	HTML, CSS, JavaScript	Displaying player statistics and summaries	Medium
5	Authentication Module	HTML, CSS, JavaScript	Login and user access control	Medium

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Meaningful names, proper indentation, and simple code improve readability.
Readability	5	Meaningful names, proper indentation, and simple code improve readability.
Reusability	4	Reusable functions and modules are used for common tasks.
Documentation / Comments	4	Comments are provided for important code sections and functions.
Overall Score	5	The code is well-structured, readable, maintainable, and reusable.
